| 2020-2021 | ThinkNext Technology<br>web dev Certi cation  |
| 2015-2019 | Shri Ramswaroop Memorial University<br>B.Tech |
| 2013-2015 | govt. Jubilee Inter College<br>Intermediate   |
| 2011-2013 | St.Xavier's Public School<br>High-School      |

### EXPERIENCE

#### Spareta

October-2022 - now

##### React developer

- Developed a React JS web application with a team, leveraging MongoDB for efficient database querying and maintenance.
- Constructed an intuitive front-end interface of the web application according to the manager's mockup specifications.
- Edited images and utilized JavaScript libraries to create an interactive and responsive user interface.
- Coded CSS scripts to ensure a consistent and visually appealing design across all web pages.
- Collaborated remotely with the team using Code Tree and GitHub for streamlined project management and effective version control.
- Utilized Google Sheets and Docs for documentation, checking in project progress, and noting changes made to the application.

#### Pariwar Fin

Jun-2022 - sep- 2022

##### UI/UX design development

- Allocated on UI/UX design Development. Created
- several projects shared on github.
- 3 Month Internship at Pariwar Finance.

### PROJECTS

#### Movie Verse using React and Firerebase

- Constructed a scalable front-end using React JS and Tailwind CSS, integrated Firebase Auth to ensure secure authentication, and employed Firebase Cloud functions to update the database with user ratings.
- Created and launched a movie rating web application powered by React JS that enables users to log in, sign up with OTP authentication, and rate movies; deployed on Vercel and Firebase DB, and attained a significant user base.
- Leveraged a tech stack comprising JavaScript, React, Tailwind CSS, Firebase DB, and Vercel to develop and deploy a responsive web application that delivers a seamless user experience.
- Developed a movie-rating web application with enhanced features such as OTP authentication for log-in and sign-up, using React JS, Tailwind, and Firebase DB; deployed on the internet via Vercel hosting platform to ensure fast and reliable performance.
- Live on - <https://movierating-ten.vercel.app/>

#### Live Search Weather App using React JS

- I've made this project using React JS using weather API where you can manually search for weather of that individual location.

#### React Responsive Gym Website

- I've made an awesome responsive gym website by using React hooks, modern CSS, framer motion, and many more. For contact .
- I've applied Email js library to make this site more functional and practical.

#### Daily News WebSite using React

- In this Website, I structured news API and React.js and bootstrap as framework and read the news by the categories

#### Web Application on Grocery Website

- Contributed to the project by building front-end using React, HTML,CSS , Javascript and
- bootstrap. Developed skills through implementing newly learned things.

#### To-Do List Project

- Tech-Stack-HTML,CSS,Javascript,nodejs Live-
